

2023 national solar container related policies

Overview

The proposed changes would add a categorical exclusion for certain energy storage systems and revise categorical exclusions for upgrading and rebuilding transmission lines and for solar photovoltaic systems, as well as make conforming changes to related sections of DOE's NEPA. Department of Energy (DOE or the Department) proposes to amend its implementing procedures (regulations) governing compliance with the National Environmental Policy Act (NEPA). It is important to understand the policy landscape early in your development process. 5 hours (Certifications and Recertifications) As solar installations increase in complexity, it's vital that installers and designers understand the latest National Electrical Code (NEC®) requirements, having been adopted in all 50 United States as well as many other nations.
