

Albania solar container power plant operation announcement

Overview

Both Sunny Side Solar and Blue 2 commenced commercial operations in August 2025, alongside one of three smaller new units, each with a capacity of 2 MW. The remaining two units were connected to the grid in April and June, underscoring the acceleration of solar PV deployment in the. While initially slated for 2025, procurement activities for the KESH Belshi Solar PV Project are now expected to commence in the first quarter of 2026. The momentum for renewable energy investments in Albania continues to grow as private sector interest in building photovoltaic power plants remains strong.
