

Australian household solar container field

Overview

Australian-made, on-grid and off-grid energy storage solutions that store solar power and can make you income through your very own Private Power Plant. The solar AIO container is a modular product in a series of products enabling full distributed energy plant deployments anywhere with enough open space to support solar energy. Build your dream home basically anywhere with our off-grid upgrade! Full lithium battery solar setup eliminates the need to connect to an existing power source. Combining the best solar energy use techniques, Australia is the highest electricity-generating country in terms of square meter because it receives around 2,000-3,000 kWh per kvadrat meter of irradiation per year (Geoscience Australia).

Australian household solar container field

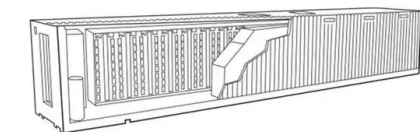

Eco Cabin , Container Homes & Pop-Up Shops

The Eco Cabin container home is the first of its kind. We have secured only the best Australian suppliers for solar, composting toilet systems and the latest in solar ...
