

# Bioelectric solar container

✓ 100KWH/215KWH

✓ LIQUID/AIR COOLING

✓ IP54/IP55

✓ BATTERY 6000 CYCLES

## Overview

---

It's a transportable, fast-to-deploy source of green energy, housed in a standard-sized container for global mobility. Thanks to foldable solar arrays, the container is rapidly deployable — operating within hours to support power needs across diverse scenarios. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Good choice for disaster reliefs whenever it is important to deliver electricity as quickly as possible.
