

# **Bloemfontein solar container project 2021**

## Overview

---

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. The two battery storage facilities use Storage GEM®, the innovative modular energy storage container technology developed by the Akuo Gro Tonga air energy. The Grootfontein PV 1, Grootfontein PV 2 and Grootfontein PV 3 projects will be built by Scatec near Touwsriver, in the Western Cape. Pre-fabricated containerized solutions now account for approximately 35% of all new utility-scale storage deployments worldwide. Genesis Eco-Energy Developments (Pty) Ltd (the Applicant) has proposed the development of the Paradise 100MW Solar PV with 40MW BESS Project south of Bloemfontein, in the Free State Province (the Project). With frequent load-shedding and growing solar adoption rates (up 47% since 2022), the city requires smart storage solutions that work seamlessly with existing infrastructure. Nestled in Free State Province, this lithium-ion battery behemoth isn't just another power project – it's the country's answer to load shedding nightmares and a blueprint for renewable energy integration.
