

# Bloemfontein solar container subsidy policy

## Overview

---

The short answer is yes, there are several support mechanisms — although they're limited and vary by user type (residential vs business). In this article, we explore current government solar subsidies, tax incentives, financing options, and municipal rebates available in South Africa. Bloemfontein's revised building codes now mandate 15kWh storage capacity per 100m<sup>2</sup> of commercial space. Snippet paragraph: State and local regulations for balcony solar systems in the USA. Europe follows closely with 32% market share, where standardized container designs have cut installation timelines by 60% compared to traditional. Will China install 30 GW of energy storage by 2025?

In July 2021 China announced plans to install over 30 GW of energy storage by 2025 (excluding pumped-storage hydropower), a more than three-fold increase on its installed capacity as of 2022. The Letsatsi project is located 35km north-west of Bloemfontein, and will consist of 280,000 poly-crystalline Hanwha SolarOne SF260P-270 photovoltaic solar panels, installed over approximately 300ha.
