

Can i buy southern solar container

Overview

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). As demand is rising around the world for off-grid power in far-flung, mobile, and emergency applications, people want to know how much does a solar container system cost?

Whether it's NGOs giving refugee camps electricity or construction firms seeking reliable power in undeveloped regions. This system can accept six-twelve solar modules, of either 60 or 72 cell format (modules not included).
