

Civilian solar container business

Overview

By combining solar panels and storage in solid, mobile shelters, solar-powered shipping containers are providing solar electricity from cities to rural villages around the world, reshaping the generation, transmission, and use of electricity. As an Air Interdiction Agent (AIA) you will perform aviation-based law enforcement operations for the detection, prevention, interdiction, and apprehension of. The age restriction may not apply if you are currently serving or have previously served in a federal civilian law enforcement. When the grid is hundreds of feet away (or non-existent), a self-contained power solution is ideal. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. These modular powerhouses combine the durability of industrial containers with cutting-edge solar technology - and they're changing the game for everyone from disaster relief organizations to glamping entrepreneur Imagine powering an entire off-grid community using a modified shipping container.
