

Finland solar container pcb processing

Overview

Planning a solar factory in Finland?

This guide covers key logistics, from sourcing materials via Baltic ports to efficiently serving the European solar market. As one of the world's top manufacturers of PCB components, Taiwan is one of the leading PCB service providers in the world. Establishing a solar module factory in Europe presents a unique set of strategic considerations. Cadmic offers prototype and volume production of printed circuit boards ranging from simple standard boards to demanding HDI boards. We also provide specialized material-based PCB solutions for RF, high-speed, flex, flex-rigid, and aluminum applications.
