

Grid-side independent solar container power station connected to the grid

Voltage range:691.2-947.2V

>6000 cycles(100%DOD)

Rated battery capacity:
216KWH (customizable)

EMS communication:
4G/CAN/RS485

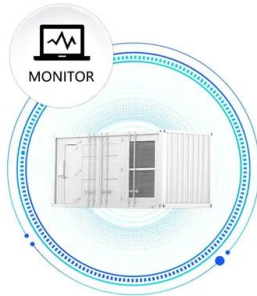

Overview

Absolutely - with modern off-grid systems, it's surprisingly straightforward. Shipping containers are often used as remote offices, workshops or data shelters on construction sites, farms, and emergency zones. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Each system integrates solar PV, battery storage, and optional backup generation in a modular, pre-engineered platform that is scalable for projects ranging from 5kW to 5MW+. The LunaVault paves the way for a sustainable and independent energy future, demonstrating the limitless potential of renewable power systems.
