

Haiti solar container station injured

Overview

Armed groups broke into several electrical stations in Haiti, stealing documents and destroying equipment in an attack that has left areas of Haiti's capital, Port-au-Prince, in darkness. Pumped storage hydropower (PSH) is a form of clean energy storage that is ideal for electricity grid reliability and stability. The country's power company said that four substations and one power plant were "completely dysfunctional" as a result of the attacks. A protester demanding the resignation of Prime Minister Ariel Henry in Port-au-Prince, Haiti, on March 1. In August 2025, a distressing shooting outside a California Closets store in Huntington Beach highlighted how unpredictable violence can disrupt daily life and shake community trust. In the second part of the podcast, they look at what might be done: Use Up/Down Arrow keys to increase or decrease volume.
