

# High-voltage direct-mounted hybrid solar container

## Overview

---

Our Hybrid Solar Container offers unmatched scalability and precision for operational needs, making it an ideal choice for army bases, disaster relief zones, and remote off-grid requirements. Preconfigured solution that combines solar energy integrated with hot water storage. Our hybrid systems leverage core technologies like DC-coupled architecture (system efficiency. PowerLink Hybrid Energy System (30-1000KW output, 100-2000KWh capacity) redefines modern power—solving pain points across construction, events, data centers, ports, and more. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar.
