

Household solar container equipment manufacturing company

Overview

At SolaraBox, we design and manufacture advanced solar containers that bring clean, reliable, and mobile energy wherever it's needed. Built for multi-industry use, our systems replace costly diesel generators and deliver sustainable power on demand. The container is equipped with foldable high-efficiency solar panels, holding 168–336 panels that deliver 50–168 kWp of power. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Governments, humanitarian organizations, and private enterprises are focusing on solar containers to deliver sustainable, emission-free power for disaster relief, military operations, rural electrification, and construction projects.
