

How are dafu s solar container products

Overview

DAFU Solar Powered Water Circulation Pump offers eco-friendly, cost-efficient performance. The Container Guy is a business that sells, rents, and modifies sea containers in Western Canada, but we also sell container accessories all over North America. We have successively developed various pumps which are suitable for agricultural irrigation and drainage, construction sites, sewage treatment, urban water supply and other industries. There are many ways to skin a cat, and even more ways to add solar power to a shipping container. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design.
