

How to find a job as an solar container major

Overview

The low-stress way to find your next solar container job opportunity is on SimplyHired. The Field Services Technician is supported and tasked with providing maintenance and repairs on a wide variety of solar and battery energy systems in an assigned geographic location; in this case, the assigned service area will primarily support solar sites located primarily within the Champaign. Our industry is one of the fastest-growing industries in the nation, and California alone employs over 100,000 workers - that's twice the number of jobs at the state's five largest utilities combined. If you're interested in working in the solar industry, check out some of the resources below: Solar Career Map developed by the Interstate Renewable Energy Council (IREC).
