

Indoor solar container power supply housing

Overview

Photovoltaic integrated container mobile houses, or solar-powered houses, are gradually becoming a new norm for green protection and energy self-sufficiency housing. Manufactured on farms or in facilities that protect the rights and/or health of workers. Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more).
