

Inner mongolia solar container power supply

Overview

Inner Mongolia has launched construction on its first ultra-high-voltage (UHV) transmission energy base with a capacity exceeding 16 GW. The project, located in the central-northern part of the Kubuqi Desert, represents a total investment of CNY 98. These innovations have improved ROI significantly, with commercial projects typically achieving payback in 4-7 years depending on local electricity rates and incentive. [Photo/Xinhua]HOHHOT -- Inner Mongolia Energy Group has started constructing a large-scale new energy storage power station in the Ulan Buh Desert, the eighth-largest in China, to better harness new energy power for grid connection. Designed with a capacity of 605,000 kilowatts, the project is the largest single.
