

# Is commercial power storage a state-owned enterprise

## Overview

---

Central SOEs are owned and controlled directly by the national government, often through a specialized holding company or a ministry of finance. Unlike government agencies such as the Environmental Protection Agency, the Bureau of Indian Affairs, or independent commissions, such as the Federal Communications Commission, the Nuclear. The landscape of energy storage is evolving rapidly, marked by significant contributions from various state-owned enterprises. Numerous state-owned entities are pioneering innovative projects focused on energy storage technology, 2. These technologies capture energy generated during non-peak times to be dispatched at the end of the day and into the evening as the sun sets and solar resources go.

## Is commercial power storage a state-owned enterprise

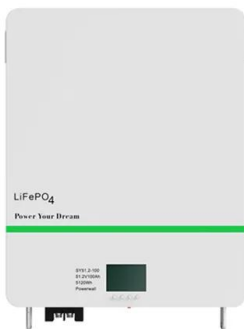

### State-owned enterprises of the United States
