Overview

The Intech Energy Container — or ECON — is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container. Ideal for autonomous energy supply wherever grid access is unavailable or undesired. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Our monophase string inverters are available in different power ratings, with a working voltage range up to 360V and power up to 6kW.
