

Kosovo solar container heat exchanger brand

Overview

BigSolar Prishtina: Innovative solar district heating solution improves air quality and reduces CO₂ emissions. Later on, the Kosovar Trust Agency (KTA) was established within the framework of which operated the Department for Monitoring of Public Enterprises, one of which. Kosovo* is developing the Western Balkans' largest solar thermal district heating project, supplying 32,000 citizens with renewable heat while expanding its network with coal plant cogeneration. Unisolar LLC was founded seeing the need for a serious company, which would be closer to the customers in the field of renewable energy. The Bell and Gossett Brazed Plate (BPX) and Gasketed Plate (GPX) models come in a variety of sizes and capacities for optimum heat and thermal transfer. Shell and tube heat exchangers are a popular and reliable choice due to their versatility, durability, and efficiency, making them suitable for a wide range of industrial and commercial applications requiring effective heat transfer.
