

# Lithium battery solar container submission

## Overview

---

A Higher Wire system includes solar panels, a lithium iron phosphate battery, an inverter—all housed within a durable, weather-resistant shell. Our systems can be deployed quickly and easily transported to different locations as project needs change. Lithium batteries are CATL brand, whose LFP chemistry packs 1 MWh of energy into a battery volume of 2. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. This report details the critical updates within the International Maritime Organization. Americase is a premier provider of custom transportation and storage solutions for high-value and hazardous goods, including lithium battery shipping, oxygen containers, aircraft parts, oil and gas equipment, and other dangerous materials.
