

# **Maximum battery solar container capacity**

## Overview

---

MEOX says to pick bess container size by looking at how much energy you use each day and how much. The most critical metric to understand in this equation is solar battery storage capacity. The Containerized Battery Energy Storage Solution (BESS) is an advanced Lithium Iron storage unit built into a customised 20ft or 40ft container. There are several technical solar battery specifications to analyze as you choose your system, including usable energy capacity, peak output, round-trip efficiency, and cycle count.
