## Overview

---

Distributed at aluminum mining camps with no grid connection and limited construction space, the folding solar containers facilitated quick installation, use of land space, as well as a stable storage supply for constant power delivery. Increases your energy capabilities with our compact and powerful 20ft Solar Energy Container construction. Designed to be strong and mobile, it offers 140kWh per day, thanks to its 60 m<sup>2</sup> solar array and 50 kWh battery storage. A solar panel on a shipping container project integrates photovoltaic (PV) technology into standard shipping containers. If you've been considering whether a mobile solar plant is right for your work site or project, this article breaks down everything you need to know.
