

New solar container foreign trade orders

Overview

trade authorities found that certain solar imports from countries including Cambodia, Malaysia, Thailand, and Vietnam were entering the market at prices below fair value and benefiting from unfair subsidies. Tariffs, foreign content restrictions, and antidumping and countervailing duty investigations have reshaped the landscape for imports of solar components and manufactured products. Image: Wikimedia Commons /Wayback Machine From pv magazine RE+ Special Edition Imports are a huge. The current solar supply chain is global but is dominated by products from China or companies with close ties to China. Announced on April 2, President Trump's so-called "Liberation Day" tariffs set a universal 10% baseline tariff on all. One of the most effective strategies for mitigating these costs and improving supply chain efficiency is the utilization of Foreign Trade Zones (FTZs).

New solar container foreign trade orders
