

Off-grid solar container control system domestic supplier

Overview

Power your off-grid container projects with custom solar plans from NewGrid Power. Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators—engineered for the places where conventional infrastructure can't reach, and built for those who refuse to compromise on reliability. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Access to a parts supply chain means that systems can be built quickly, efficiently and without compromise in the UK. At BoxPower, our technology combines modular hardware and intelligent software into a unified system that delivers resilient energy for the most challenging environments.
