

Oslo distributed solar container company

Overview

Ocean Sun provides floating solar technology that works where others does not. Our breakthrough membrane technology turns reservoirs, lakes, and coastal waters into clean energy powerhouses while the water keeps panels cool for maximum efficiency. When you land on a webpage about Oslo distributed energy storage companies, you're probably either: But here's the kicker - Norway's energy storage market grew 48% last year alone (Statista 2023). It is slated to commence commercial operations by September 2025, aiming to supply electricity to a minimum of 65,000 households. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever.
