

Oslo solar container investment company

Overview

Ever wondered how a city known for fjords and Nobel Peace Prizes became a global energy storage hotspot?

Meet Oslo Container Energy Storage Company, the unassuming hero turning shipping containers into climate-saving power hubs. Described as Zambia's inaugural solar facility equipped with battery storage, the project holds an estimated value of \$65 million. It is slated to commence commercial operations by September 2025, aiming to supply electricity to a minimum of 65,000 households. GOGC Energy is an Engineering, Procurement and Construction company based in Oslo, Norway, offering solar photovoltaic (PV) power solutions on a turnkey EPC basis to commercial and industrial clients, agriculture, utilities and governments worldwide. Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh.
