

Photovoltaic solar container service provider

Overview

Our crews and documentation get solar containers producing power in hours — ideal for urgent or remote projects. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar. We tailor each unit to your power needs, run full factory testing, and enable fast on-site setup so systems generate power within hours. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design.
