

Port of Spain Solar Container Investment Company

Overview

Hutchison Ports BEST (Barcelona Europe South Terminal) terminal at the Port of Barcelona in Spain has installed 1,832 solar panels on almost 5,000 m² of its buildings. The project has been executed by Solar Profit, a company that specializes in solar energy-related projects. APM Terminals Valencia is embarking on an ambitious solar energy project as part of APM Terminals' ambition to be carbon neutral by 2040. Higher costs of €500–€750 per kWh are driven by higher installation and permitting expenses.
