## Overview

---

The solarfold Photovoltaic Container is mobile for universal deployment with a light and versatile substructure. The semi-automatic electric drive unit manoeuvres the mobile photovoltaic system into its operating position rapidly and smoothly along a length of around 123 metres. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. Equipped with folding PV arrays that snap out in seconds, modular lithium battery packs, and advanced.
