

Riding the wind and waves of new solar container

SUPPORT REAL-TIME ONLINE
MONITORING OF SYSTEM STATUS

Overview

In 2023, buoys from a Swedish company called CorPower survived record-breaking 60-foot waves — and kept sending clean power to the grid. They don't just ride the waves — they tune into them, using smart engineering to amplify their motion and squeeze out more energy from. Our complete solar system is finally DONE! Lou goes through exactly how he built our off grid DIY power station to run everything we need in the shipping containers. This shipping container build has been a pretty epic adventure, can't wait to see where things progress as winter sets in!. It's a QUICK 10 minute phone call! COMPLETE SET UP! RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows. These portable units can house various energy systems, such as solar panels, wind turbines, or fuel cells, to generate and store electricity.
