

Solar container aerosol

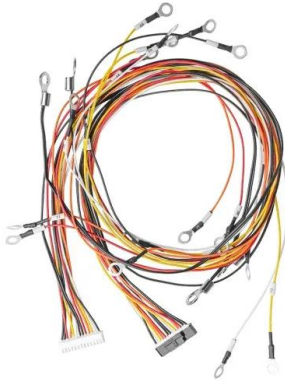

Overview

From portable units to large-scale structures, these self-contained systems offer customizable solutions for generating and storing solar power. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Thanks to foldable solar arrays, the container is rapidly deployable — operating within hours to support power needs across diverse scenarios. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design.
