

Solar container battery detection all

Overview

New battery management system technology has made solar containers better. With Topflytech's SolarX Series and TLP2-SFB, you get more than a device—you get eyes on your containers. 94% of serious crashes are tied to human factors like speeding, inattentiveness, and aggressive driving. It's built for flexibility, longevity and extreme robustness on all kinds of non-power-supplied assets. Leverage exceptions, engine faults, fuel, trips history data from enhanced mapping services. It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. Powered by solar energy with a built-in backup battery, it supports semi real-time location tracking both domestically and internationally.
