

Solar container electrical control

Overview

Calculate your shipping container home's electrical panel size, circuit breakers, inverter capacity, and solar panel requirements. When the grid is hundreds of feet away (or non-existent), a self-contained power solution is ideal. Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Access to a parts supply chain means that systems can be built quickly, efficiently and without compromise in the UK.
