

Solar container policy window

Overview

Key aspects of passive design include appropriate solar orientation, the use of thermal mass, shading, and appropriate ventilation and window placement. These behemoths jam solar panels, inverters, batteries, and control systems into a shipping container that you can access anywhere. Have you tried out dark mode?

! Scroll to the bottom of any page to find a sun or moon icon to turn dark mode on or off! I have a 20ft HC shipping container that houses some storage, tools, construction material and also a small solar set up. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Whether you're managing a construction site, a mining operation, or an emergency.
