

# Solar container power supply ccc certification

## Overview

---

CCC (China Compulsory Certificate system) is compulsory certification system regarding safety and EMC, and enforced in May 1st, 2002 by AQSIQ (General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China) and CNCA (Certification and. When you're about to roll out containerized solar systems--for a Haitian humanitarian mission or a telecom project in Namibia--you'll soon have to answer a crucial question: what certifications should solar containers have to ensure safety, performance, and compliance with regulations?

Solar. Creepage Distance: Creepage distance refers to the distance measured along the insulating surface between two conductive bodies or the shortest distance between a conductive. The China State Administration for Market Regulation (SAMR) announced CCC requirement for lithium-ion cells and batteries used in portable electronic equipment through Notice No.
