

Solar container project technical bid documents

Sample Order
UL/KC/CB/UN38.3/UL

Overview

The bidders are required to submit (a) original payment documents towards the cost of registration on e-procurement website (if not previously registered); and (b) original bid security in approved form (c) Written confirmation authorizing the signatory of the Bid to commit. This document has been published with the support of Andy Walker, Otto VanGeet, Tom Harris and Chandra Shah of the National Renewable Energy Laboratory (NREL). The enclosed technical template language is intended to provide only example language for agencies to consider in the process of assembling. A working understanding of contract development best practices and access to standardized solar contract templates and request for proposals (RFPs) will help reduce the time and cost associated with this process by improving project transparency and accountability while accelerating solar. Related Services are provided in the attached Supply Re I be selected under the Negotiated procurement method and procedures described in this Bidding Document B Bid. The tender will consist of 65% renewable energy with storage and 35% non-renewable energy.
