

Solar container transport vehicle caught fire

Overview

A fire broke out aboard the Morning Midas, a 600-foot Liberian-flagged cargo ship traveling from China to Mexico with more than 3,000 vehicles onboard—751 of them either fully electric or hybrid models. The ship caught fire on June 3, about 300 miles south of Adak, Alaska, forcing the crew to. The fire originated on a deck carrying electric vehicles, prompting emergency firefighting efforts.

50KW modular power converter

- Flexible Configuration**
 - Modular Design, Supporting Hot Replacement
 - Small Size, Wall Mounted
 - Installed in Parallel for Expansion
- Powerful Function**
 - Support PV/WT
 - Grid Support, Equipped with DVC Technology
 - On-Grid and Off-Grid Operation
- Reliable Protection**
 - Custom IP65 Design
 - Sufficient Protection Functions Equipped
