

Solar water storage tank capacity

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5

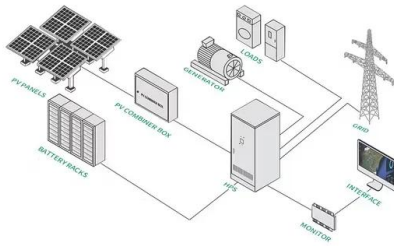

Overview

A professional can help you calculate this, but as a general rule, a family of four would typically need about a 300-360 litres system. When searching for the best storage tanks for solar water heaters, you'll want to take into account capacity, durability, insulation, and heating efficiency.
