

State grid orders solar container

Overview

Regulators in the US state of Colorado have ordered Xcel Energy's local utility to introduce a flexible interconnection option aimed at lowering grid costs for community solar and energy storage projects. Energy storage has a pivotal role in delivering reliable and affordable power to New Yorkers as we increasingly switch to renewable energy sources and electrify our buildings and transportation systems. Integrating storage in the electric grid, especially in areas with high energy demand, will. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. The Colorado Public Utilities Commission has ordered the Public Service Company of Colorado to. We are proud to partner with one of the leading providers of factory installed solar options for shipping containers.
