

# Steel solar container concept

## Overview

---

It consists of four 40-foot steel converted shipping containers that are placed in the shape of an 'X,' converging in the middle. Each container can sleep up to 20 people in private 5-by-8-foot rooms (with one resident per room), and they all offer central air conditioning powered. One of our key offerings is a comprehensive suite of solar technology solutions designed to empower your container home with clean, renewable energy. It is the perfect alternative to unstable grid power and diesel generators, keeping operations running even in remote areas or where infrastructure is weak.

## Steel solar container concept

---

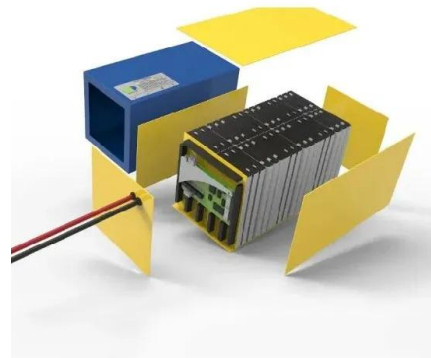

Voltage range: 91.2-947.2V  
>6000 cycles (100%DOD)  
Rated battery capacity:  
216KWH (customizable)  
EMS communication:  
4G/CAN/RS485

### Phoenix houses 80 in solar-powered shipping container homes
