

Swedish wind power solar container company

Overview

Founded in 2007 as an onshore wind independent power producer, Arise now works across a broad range of technologies including utility scale solar and battery energy storage systems. Uniper supports this development across the entire value chain — from project development to operation of solar and onshore wind power plants. We offer c environmentally friendly, customized, and flexible energy solutions that enable industry and society to reduce their carbon footprint and. The primary driver of Sweden's clean energy future is anticipated to be wind energy, as the country strives to attain net-zero emissions by 2045.
