

The solar container power supply is clicking

Overview

My solar inverter clicked every 30 seconds for weeks until I discovered these 5 simple causes. Three weeks ago, I was checking on a customer's new solar installation when their inverter started this annoying clicking sound. Scroll to the bottom of any page to find a sun or moon icon to turn dark mode on or off! Random clicking coming from MPP Solar 24V system. During this "clicking" the AC Load bulb will be changing shades of yellow on/off. When this starts, I have turned off my PV input (a switch I have in between AC300 and panels), and the.

The solar container power supply is clicking

Random clicking coming from MPP Solar 24V
