

# There are 8 clusters of 20-foot solar containers

## Overview

---

For a 20-foot container, the average solar panel is around 65 inches wide, so approximately 13 solar panels are needed. A standard 20-foot shipping container can fit between 10 and 15 solar panels, while a 40-foot container can hold up to 30 panels. 65m x 1m Standard 72-cell panels: ~2m x 1m  
Packing Orientation The panels can either remain stacked horizontally or with very slight incline support using padding. Scroll to the bottom of any page to find a sun or moon icon to turn dark mode on or off! Not sure if this is the right spot but here it is.
