

Underwater solar container device of fontaine central laboratory

Overview

Once you locate the area where the Seelie is underneath you, jump off the side and quickly enter the water again! Use an Ousia block or an Ousia character's normal attack on the Energy Transfer Terminal to activate it and remove the invisible wall in the cracks right above it. The Central Laboratory Ruins Seelie Puzzle gives a Luxurious Chest when you find the Four Seelies inside a floating water cube in Genshin Impact 4. See all Seelie locations, and how to solve the Central Laboratory Seelie puzzle here! What is the Ruins Seelie Puzzle?

The Central Laboratory Ruins. Fixed Storage Devices and Energy Transfer Devices are an exploration mechanic in Fontaine currently found in the Liffey Region and Fontaine Research Institute of Kinetic Energy Engineering Region. It is located inside one of the Hydro Cubes, connected to the fairy and energy storage devices. The Hydro nation is very famous for all of the Institute's technological breakthroughs and their application to everyday life, such as the Clockwork Meka.
