

# What are the domestic vanadium solar container project companies

## Overview

---

Storion is a joint venture formed in February between Largo Clean Energy, a leading vanadium producer, and Stryten Energy, a company specialising in multi-technology energy storage solutions. Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Residential vanadium batteries are the missing link in the solar energy equation, finally enabling solar power to roll out on a massive scale thanks to their As renewable energy adoption surges, the all-vanadium liquid flow energy storage power station EPC model has emerged as a cornerstone. centives for companies to invest in domestic manufacturing within the clean energy sector. Project Blue and other analysts projected that the VRFB market would account for approximately 17% of vanadium.
