Overview

CEA ZP and ZT series resistance spot welders are the perfect machines for all spot welding applications on any weldable material. They are supplied with either of 2 operating modes, mechanical (ZT) or pneumatic pedal (ZP). Technological advancements are dramatically improving solar storage container performance while reducing costs. We manufacture your spot welding machine tailored exactly to your requirements while falling back on a powerful modular system whose elements for spot welding we design and fabricate ourselves. Your individual specifications - at the same time we will gladly take your specifications, for instance.
