

# What does the new equipment s outdoor 36-hour solar container mean

ESS

## Overview

---

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. With high solar yields this robust range of mobile solar power systems delivers alternative power solutions to temporal energy provider companies. In this tutorial, we're going to demystify the 7 must-have features of a successful solar container using practical use cases, industry insights, and a pinch of humor to make it fun. I mean, clean energy shouldn't be boring, right?

Now, let's talk about the audience for a moment.
