Overview

The practice is a diverse and full-service shipping container homes design collaborative that examines and explores practical ways to integrate client needs, project cost limitations, physical construction, energy conservation opportunities and innovation with local climate and. LZY is a premier solar containers manufacturer with over a decade of experience developing innovative mobile solar power solutions. Container homes with solar panels are a smart, sustainable way to live—and they look cool too. These homes are flexible, with layouts that range from simple single-container builds to larger, connected designs. CNG solar design engineering specialists provide a variety of important services to its clients to ensure the successful integration of solar panels into the existing roofing systems: CNG evaluates the site and conducts a thorough assessment of the roof's condition, orientation, tilt, shading, and.
